

NovaCart — Frequently Asked Questions

General

- NovaCart is an online shopping platform offering electronics, home accessories, fashion items, and everyday products.
- Customers can contact support for order, payment, delivery, refund, cancellation, and account-related questions.
- Customers should keep their order ID available when contacting support about a specific order.

Orders

- Customers can check order status using their order ID.
- Order statuses may include Placed, Confirmed, Processing, Shipped, Out for Delivery, Delivered, Cancelled, or Failed.
- If an order has been shipped, the estimated delivery date is shown in the order information.

Payments

- NovaCart supports cards, UPI, and supported digital payment methods.
- If payment is deducted but the order is not created, customers should contact support with the available payment reference.
- Payment status must be verified from the payment record before support confirms whether a transaction succeeded.

Refunds and Cancellations

- Refund eligibility depends on the product and applicable refund policy.
- Cancellation availability depends on the current order status.
- Orders already shipped may not be cancellable through the normal cancellation flow.

Account

- Customers should use the email address associated with their NovaCart account for account-specific assistance.
- Customers should never share passwords, OTPs, card PINs, or other authentication secrets with support.
